

A Liturgical Year Journey Staff

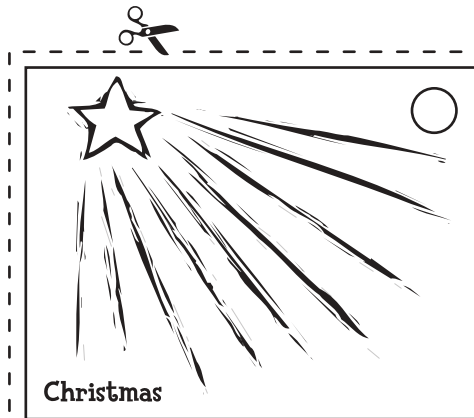

You are learning about many of our ancestors in faith and the journeys they made. While these ancestors were traveling, they carried journey staffs. They used the staffs to probe unknown ground or to support themselves as they walked.

Celebrating the liturgical seasons each year can seem like making a journey of faith in and love for Jesus.

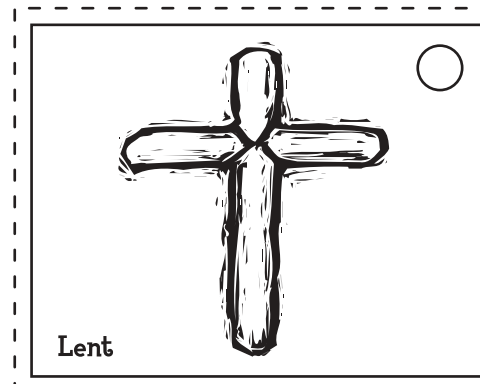

Make a liturgical year journey staff. Use a stick or an old mop or broom handle. Color each season's card with the color shown on the chart in your text. Cut out the cards, and write a prayer for the season on the back of each card. At the beginning of each season, tie the card to the staff. Pray the prayer often during the season.
